Frequently Asked Questions (FAQs)

Q1: Where can I find a Burriss scope manual if I've lost mine?

A1: Burriss' website usually hosts downloadable PDFs of their scope manuals. Search their site using your scope's model number. Alternatively, contacting Burriss customer support directly is another effective way to obtain a replacement manual.

Q2: How often should I clean my Burriss scope?

A2: Regular cleaning helps maintain optimal performance. After every shooting session, use a soft lens cloth to gently wipe away dust, debris, and fingerprints. For more thorough cleaning, use a specialized lens cleaning solution and a microfiber cloth as directed in your Burriss scope manual. Avoid harsh chemicals or abrasive materials.

Q3: What if my Burriss scope isn't zeroing correctly?

A3: Several factors could cause this, such as improper mounting, loose rings, or environmental factors. The manual usually contains troubleshooting steps. Ensure you follow the zeroing procedure correctly. If issues persist, contact Burriss customer support or a qualified gunsmith.

Q4: How do I adjust the parallax on my Burriss scope?

A4: The parallax adjustment, if present on your model, will be detailed in your manual. It usually involves a side-mounted knob or turret. Adjusting this knob eliminates blurry images at different distances, ensuring crisp focus on your target.

Q5: My Burriss scope's reticle seems blurry. What should I do?

A5: Ensure your scope is properly focused. Check for any dirt or smudges on the lenses. If cleaning doesn’t resolve the issue, there might be a problem with the scope's internal components, requiring professional service.

Q6: What type of tools do I need to mount a Burriss scope?

A6: The required tools will depend on the mounting system. However, generally, you will need a torque wrench (to avoid over-tightening and damaging the scope or rings), appropriate size screwdrivers, and possibly a scope mounting base depending on your firearm.

Q7: Can I adjust the Burriss scope's reticle illumination?

A7: Only illuminated reticle models offer brightness adjustment. Your Burriss scope manual will specify whether your model has this feature and how to adjust the illumination.

Q8: What is the warranty on my Burriss scope?

A8: Warranty information is generally found in your Burriss scope manual or on Burriss's website. Be sure to register your scope to activate the warranty. The details of the warranty will vary depending on the specific model and place of purchase.
